

Announcement:

¶ This number completes Volume III., which was begun in October, 1908. Then followed the time of suspension until publication was resumed in April, 1912. The new volume will begin with January, 1913, thus making the *Quarterly's* publication start with the calendar year.

¶ The closer relationship of the *Quarterly* with the active history work in the State University of Washington is proving to be of more value as each issue appears.

¶ Words of encouragement are coming from libraries in the Northwest. These are the centers where the use of the publication will be felt first.

¶ We now wish to hear from the colleges, high schools, women's clubs, literary societies, and individuals. We wish to increase the *Quarterly's* efficiency in this field.
