

# Announcement

¶ The pioneers of the State of Washington are keenly interested in the history they have helped to make. This issue of the Quarterly is designed as a special tribute to them. A glance at the table of contents will show how the materials have been selected for that purpose.

¶ A few changes have been made in the list of contributing editors of the Quarterly. It is a distinct pleasure to welcome into this group such well known authorities and workers in the field of Northwestern history as Judge F. W. Howay of New Westminster, B. C., William S. Lewis of Spokane and General Hazard Stevens of Olympia. Those who remain from the older board are well known to the readers of the Quarterly.

¶ With this issue a new volume is begun with abundant prospect of increased usefulness to the cause of history in the Pacific Northwest.
