In the larger pamphlet, Mr. Conover has collected a mass of evidence showing that "Tacoma" was not the aboriginal name and showing also why the time honored name of Mount Rainier should not be displaced. The first part of this pamphlet is a record of the case presented before the United States Geographic Board on May 2, 1917. To this have been added statements by a number of well-known authorities. The title page of the pamphlet is practically a table of contents as follows:

Conover, Representing Numerous Citizens of the State of Washington in Favor of Retaining the Present Name, and Oral Presentation by C. T. Conover and Victor J. Farrar, May 2, 1917. Statement of C. Hart Merriam, a Member of the United States Geographic Board, Before Said Body, May 11, 1917. The Decision, May 11, 1917.
