

belched forth fire and molten lava, it is now silent, and ice covered; and on its summit, pouring down its sides in mighty rivers of ice, is the most complicated, largest and most beautiful single peak glacier system in the United States. Mr. Schmoe, who is the Park Naturalist at Mount Rainier, has spent much time and effort in studying the hoary old mountain and its surrounding wild life. The study of this book will unquestionably add much to one's knowledge of Mount Rainier National Park and to the enjoyment of a visit to this vast playground which is literally a gigantic out-door museum."

Seattle, Her Faults, Her Virtues. By ALMIRA BAILEY. (Seattle: The Chamber of Commerce, 1925. Pp. 38).

The intimate sketches in this attractive pamphlet are given under these heads: "The Tenderfoot Arrives," "Just at First," "According to the Census," "Blue Smoke from Red Chimneys," "The Madison Street Lady Bug," "Port of Seattle," "Out Here They Call It Cheap Juice," "Shrubs and Architecture," "In the Life of a Man," "Such a Marketplace!" "Mother Goose to Ph.D.," "The City Beautiful," "& Seattle Has Her Faults," "The Rain! and the Truth About It," "Panoramic." On the last page appears: "These little intimate 'close-ups' of Seattle were written by Almira Bailey, who came for a fleeting visit—but remained to live! The Chamber of Commerce is publishing this series in the hope that the booklet will convey a true impression of what citizens are proud to call 'One of the World's Remarkable Cities'."

Alaska, Its Past, Present, Future. By SCOTT C. BONE. (Seattle: The Author, 1925. Pp. 46.)

The first of this group of books on Alaska is by far the most important. In fact, for a score of years, it has been depended upon as one of the most comprehensive works on that great region. It is now practically rewritten and newly added chapters treat such subjects as fur-farming, fur seals, reindeer, forests, vol-
