

The Washington Historical Quarterly

INDEX TO VOLUMES I-XX

NOTE: This second decennial index to the Washington Historical Quarterly has been compiled by Miss Ethel M. Christoffers of the University of Washington Library. It follows the same general plan as the first decennial index. Where several entries appear under a single name, articles by precede articles *about* a given author. In the analysis of subjects, the secondary arrangement is normally alphabetical but in some instances as in grouping documents the chronology has been followed. The citations are given by volume and page, the volume preceding the colon, and the page or the inclusive paging following it.
