

UNIV. OF WASHINGTON LIBRARIES

**Proceedings of the 13<sup>th</sup> ASIS&T SIG/CR  
Classification Research Workshop**

**Held at the 65th ASIS&T Annual Meeting  
Sunday November 17, 2002  
Philadelphia, PA**

special interest group: classification research

**Special Interest Group/Classification Research  
American Society for Information Science and Technology**

## Preface

The aim of this year's workshop is to identify and articulate research questions and research agendas that could form the core of classification research in the next decade. The underlying assumption is that this is an exciting time for classification research, but that the classification-research community needs to revisit the current state of knowledge in order to identify potentially productive directions for future research and future collaborations with other areas of information science.

This volume is a working copy of the papers presented at the 13th ASIS&T SIG/CR classification research workshop, held in Philadelphia, at the ASIS&T Annual Meeting on Sunday November 17 2002. The contributions printed here are working papers, and thus, not necessarily in their final form. For this reason, workshop participants and other readers are asked not to quote from the papers in this volume.

The success of the ASIS&T SIG/CR Classification Research Workshop is the result of the work of many people. This year's workshop was organized by:

### Chairs:

Clare Beghtol, University of Toronto, [beghtol@fis.utoronto.ca](mailto:beghtol@fis.utoronto.ca)  
Jonathan Furner, University of California, Los Angeles, [jfurner@ucla.edu](mailto:jfurner@ucla.edu)  
Barbara Kwasnik, Syracuse University, [Bkwasnik@syr.edu](mailto:Bkwasnik@syr.edu)  
Jens-Erik Mai, University of Washington, [jemai@u.washington.edu](mailto:jemai@u.washington.edu)

### Program committee:

Hanne Albrechtsen, Risoe National Laboratory, Denmark  
Jack Andersen, Royal School of Library and Information Science, Denmark  
Elisabeth Davenport, Napier University, Scotland  
Jane Greenberg, University of North Carolina at Chapel Hill  
Edie Rasmussen, University of Pittsburgh  
Paul Solomon, University of North Carolina at Chapel Hill

### Assistance:

Leah Cushman, University of Washington

## Table of Contents

Kathryn La Barre "Look back to look forward: The Classification Research Study Group and SIG/CR".....	1
D. Grant Campbell "Centripetal and Centrifugal Forces in Bibliographic Classification Research".....	8
Joseph T. Tennis "Three Spheres of Classification Research: Emergence, Encyclopedism, and Ecology".....	16
Paul Solomon "Bringing People, Technology, and Systems Together Through Classification Research: Designing for Change, Learning, and Maintenance".....	23
Jonathan Furner "Bibliographic Relationships, Citation Relationships, Relevance Relationships, and Bibliographic Classification: An Integrative View".....	29
James D. Anderson "Effective Display of Browsable Classification on the WWW and other Hypertext Media".....	38
Linda Hill, Olha Buchel, Greg Janée, and Marcia Lei Zeng "Integration of Knowledge Organization Systems into Digital Library Architectures: Position Paper for 13th ASIS&T SIG/CR Workshop, "Reconceptualizing Classification Research".....	46
Wendi Pohs, Dick McCarrick, and Michael Muller "Creating and Maintaining Machine-Generated Taxonomies in Human Organizations: Contributions from Research and Practice".....	53
Michael L. McGlashen and Anne Rogers "Classification in the Physical Sciences".....	59
